Explanation of Reverse Photo's and sketch's

1) Dettling holding a "firestick" bomb part similar to one used in a New York City attack 2) The Nathan R note which was scratched into the envelope of the June 1993 letter to the New York Times which pre-announced the Gelernter and Eptsein bomb attacks. 3) The Gelernter bomb remains including the ignition switch which was identified from Dettlings Garage one year prior to the attack 4) Hren and Sean sitting in Dettlings garage (Sean's SS# matched the Unabomber ID) 5) The Photos window bars were picked up by the morph software and blended into sketches forehead 6) Judge Robert Vance was murdered in atlanta in 1989 by a bomb just before presiding over 4 interlinked drug appeals cases all fingering the CIA as the drug supplier 7) Photos blemish under left eye confused morph software creating the arrow shaped sketch blur 8) The 1987 FBI sketch based on morph of a Kaczynski photograph which the witness refused to accept as looking like the bomber 9) 1960s Photo which the morphed sketch was based on, fortunately "blemishes and all" 10) Photo white specs above and below right eye pupil in sketch 11) Photo neck shadows in sketch 12) Photo nose line shadows with left present and right missing in the sketch and hidden in shadow in the photo 13) Road hazzard bomb from Dettlings garage which matches the Hugh Scrutton bomb. Five United States patents trace Dettling finanically to CIA supplier's i.e. MB Associates.
